Awards

Project Showcase Winner
Dec 2019, UC Berkeley, CA
Finalist among a class of 100+ students creating websites from scratch

Education

University of California, Berkeley • *B. A. Cognitive Science*
Aug 2017 – May 2021
Cumulative GPA: 3.568

Experience

Marqui Labs • *Front-End Developer Intern*
Jun 2020 - present, Mountain View, CA
Wireframe and code websites for clients like NASA and SynBioBeta to have a more user-friendly and visually pleasing experience, build content architectures, design logos and assets for clients

Structure and Interpretation of Computer Programs • *Academic Intern*
Sep 2019 – Dec 2019, UC Berkeley, CA
Taught 20 college students computer science concepts such as object-oriented programming and data structures, collaborated with three other interns to review academic progress and cater teaching method to the students

Projects

NASA Advanced Air Mobility Portal • *Marqui Labs*
Aug 2020 – Oct 2020, Mountain View, CA
Integrated a front-end with a headless content management system to transition from a static to a dynamic website implementation, collaborated to build a content architecture that reduced file redundancies and facilitated the content management experience for non-admin users

NASA University Leadership Initiative Website Redesign • *Marqui Labs*
Jul 2020, Mountain View, CA
Designed and implemented a fully mobile-responsive website to improve user experience with finding information

Welcome to Omelas • *Web Design*
Nov 2019 – Dec 2019, UC Berkeley, CA
Created animations and interactive elements in a website retelling of a philosophical short story

KingPin Donuts • *Web Design*
Oct 2019 – Nov 2019, UC Berkeley, CA
Redesigned a bakery website to have a cleaner menu and website layout, produced graphics to make the menu look appetizing
